EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   January 2023 – Present

Mastered intermediate and advanced topics in full-stack development (Javascript, React, Ruby on Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

BookFlix — Web application that allows users to signup and book reservations for movies cast in a cinema.
- Built with: (React, Ruby on Rails, Bootstrap, CCS3, PostgreSQL).

Space Travellers — Single page application that uses real-time information from SpaceX API. It shows rockets and missions a user can join or leave. Users can also reserve or cancel a rocket.
- Built with: (React, Redux, Bootstrap, CSS3, RestAPI).

KENYA BUREAU OF STANDARDS   Nairobi, Kenya
Intern(IT DEPARTMENT)   July 2022 – October 2022
- Added new features to the company's website, contributing to improved user experience.
- Skillfully troubleshoot network problems, ensuring seamless operations for colleagues.
- Significantly improved communication skills through regular interaction with team members.

EDUCATION

MICROVERSE   Jan 2023 – August 2023
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

MULTIMEDIA UNIVERSITY OF KENYA   Nairobi, Kenya
Computer Science   Feb 2020 – Present

- Learned Web Development and helped in the front-end development of the school's portal.
- Participated in a Data Structures and Algorithm Hackathon, securing a commendable third place.
- Learned MySQL database and together with peers built a student hostel system.
